

# LACE

**Design by**  
Benjamin Graindorge

## Description

With LACE, as with all of his previous projects, Benjamin Graindorge brings us an ordinary yet highly original product - this time a footstool - with a truly astonishing personality. Less deep and slightly narrower at the base, it is very light in appearance. Its personality springs from the thin cord which runs around and through it to give it such an elegant appearance. Since he knows Japan so well, he has no doubt drawn inspiration from Japanese art, in particular shibari ...

In terms of interior arrangement, one should ensure that Lace is displayed in a range of different versions.

## Technical Specifications
