

BERLIN LOFT

Design by
Müller Wulff

Description

Berlin Loft is a sofa bed which designers Thomas Müller and Jörg Wulff define as 'trendy' and 'casual.' It is perfect for a modern interior and will be, by turns, the place to sit, sleep, rest and do nothing. This sofa resembles the city in which it was born in the imagination of the designers: Berlin. A simple, unabashed, practical and modern city. "The sofa becomes the center of our space, the platform for our lives, a cocoon of sweetness in such a bustling city."

Technical Specifications

CONSTRUCTION

Two mechanically-soldered metal frames linked by 3 articulated ratchet joints. The base is composed of 2 tubular metal feet which are screwed to the underframe - finished in satin anthracite gray lacquer.

COMFORT

High resilience Bultex foam (36 kg/m³ - 2.7 kPa, 38 kg/m³ - 3.6 kPa, 42 kg/m³ - 4.7 kPa).
Suspension on seat: elastic webbing on hooks.
Suspension of back: elastic sheet stretched across the frame.

The depth of the seat enables one to stretch out comfortably and is a real invitation to relax. Numerous cushions may be scattered on top - these may serve as armrests, lumbar or back cushions. There is even sufficient room for a favorite pillow. The rear section may be easily manipulated to find one's preferred angle of inclination between upright and the horizontal bed position.

Parallel sleep platform of size 55½"x79"/141 x 201 cm.

Cushions filled with polyester fiber.

- 2 cushions supplied as standard (A: 28¾"x 19"/73 x 48cm, with over stitching; B: 25½" x 13¾"/65 x 35cm, without over stitching)

- 2 optional cushions (C: 15¾" x 19¾"/40 x 50cm, without over stitching; D: 15¾" x 19¾"/40 x 50cm, with over stitching).

MAKING-UP

Overstitching on the periphery. Cover quilted with 200g/m² polyester. Covers may be removed by a professional.
