

ETTORIANO

Design by

Claudio Dondoli & Marco Pocci

Description

CONCEPTION

Available both as a chair and as a bridge, Ettoreiano offers a contemporary solution which is both discreet and comfortable.

The convinced minimalism of the Ettoreiano chair allies the finesse of its steel base with an all-enveloping one-piece moulded shell.

Made from felt, it is the warmth of this very current material which reinforces the feeling of comfort procured by the welcoming curves of the integral shell, designed as it is to hug the body. In the case of the bridge, the lines of the moulded felt shell sketch out two flared armrests which offer excellent support to the forearms.

Technical Specifications

CONSTRUCTION

Base in chromed or sanded/textured anthracite lacquered steel.

COMFORT

Moulded seat/back shell (+ armrests in the case of the bridge) made from 12 mm thick grey PET obtained by pressing together 3 layers of 10 mm thick felt (150 g/m²). PET felt is an ecological material which comes thanks to the recycling of plastic bottles.

MAKING-UP

Optional seat cushion for chair and bridge. Filled with high resilience polyurethane foam 38 kg/m³ - 3.6 kPa and 110 g/m² polyester quilting. Cover of cushion is removable.

COVERING MATERIALS

it is possible to choose a colour for the cushion which tones with the grey of the shell and base, or in a contrasting colour for added dynamism.
