

ARMCHAIR BLACK INDOOR / OUTDOOR FIFTY.

Designer

Dögg & Arnved Design Studio

Technical characteristics

The inspiration for the Fifty armchair is clearly to be sought in the "Flag Halyard Chair", the recliner chair in metal and cord designed by Hans Wegner in Denmark in 1950. Dögg & Arnved designed a straight backrest to allow not only for rest but also reading (or watching television). The woven 'ears' on each side of the headrest reinforce the general feeling of intimacy. The 350 metres of woven cord used is available in grey, black or tobacco colour, set on a black steel structure. The Fifty armchair will be a sculptural presence in whichever room it occupies and will intrigue with its unexpected alliance of the minimalist design of its steel structure and the traditional warmth of the hand-woven cord. Fifty is designed to be used outdoors as well as indoors.

CONSTRUCTION Structure and base in sanded black-lacquered steel with anti-corrosion treatment, finished in anti-UV treated black polyester lacquer.

Protective gliders. **COMFORT** Seat and back woven with 350 m of mass-dyed, anti-UV treated polypropylene cord. A seat/lumbar cushion in 'Dry-Feel' foam may be ordered as an option. This foam has a completely open cellular structure

DIMENSIONS

Height 1,125 mm | Width 735 mm | Depth 880 mm | Seat height 340 mm |
Seats 1 | Weight 21 kg

which facilitates the evacuation of humidity, thus reducing the drying time and thus avoiding the development of mildew. This cushion is fitted with black cords with which it can be tied to the armchair frame to hold it in place. FABRICS Structure in black lacquered steel with grey, black or tobacco-coloured cord.
