

EVISA

Designer

Philippe Nigro

Technical characteristics

With his new bed, the success of Philippe Nigro's wager lies as much in its great visual and physical comfort as it does in the impression of preciousity it exudes from its reasonably-sized headboard to the art deco-reminiscent slopes of its base. Enveloping, reassuring and above all evocative : of basking in the natural pools of the forest waterfalls of Evisa, Corsica, whose columns of water could have inspired the ridges of the headboard. Unless the latter are more evocative to you of a 'madeleine de Proust' such as sponge fingers or the gluttony of a clafoutis...Moreover, this is a bed which merits being located in the very centre of a room, given that such a high degree of attention has been lavished on all of its aspects.

CONSTRUCTION In order to align the mattress with the bed frame, this bed has an integral base : Bowl-shaped upholstered bed base with structure plywood and plywood slats.

Suspension: high resilience Bultex foam 36kg/m³ – 2.6 kPa. Always supplied in 2 sections. Exclusive 100% cotton piqué ticking, treated with « HealthGuard » (fungicidal & anti dust mite); may be dry cleaned.

HEADBOARD Structure in metal tubing and metal mesh covered in high resilience Bultex foam 26kg/m³ – 1.55kPa.

MAKING-UP Headboard quilted with 110 g/m² polyester ; cover may be removed by a professional. Bed bumper

quilted with 110 g/m² polyester ; covers
are removable.
