

HAT

Designer

Jutta Werner

Technical characteristics

The HAT wall mirror is made up of a MDF structure with a walnut veneer section (with natural varnish) or red black lacquer (Ral 3007) and a mirrored glass section. The hanging system allows the mirror to be positioned horizontally or vertically (4 positions in total). The mirror occupies a little more than half of the structure: mirror 43 cm / a total length of 80 cm. The interest of the mirror lies in the wall assembly that can be achieved by different combinations of the different versions. You need at least a set of 2 then 1 individual unit or a selection of many others to have a harmonious set.
