Technical characteristics

Shade in satin black lacquered (Ø 3 mm), in transparent lacquered copper-plated (Ø 3 mm) or matt gold (Ø 3 mm) steel wire. It is possible to mount 1, 2, 3, 4, 5 or 6 shades (max. 4 for the transparent varnished copper version) upside-down or right side up to create a multitude of different suspended ceiling lights. However, it is not possible to create compositions completely as you like, in that it is vital to always be symmetrical at the very least, with more shades pointing downwards than upwards. The electrical fittings (to be ordered separately) comprise 1 x 23W E 27 compact fluo globe bulb Ø 120, colour 827 (warm white), 1 x 2m black electric cable and 1 x ceiling fitting.
