

OTTOMAN

Designer

Noé Duchaufour-Lawrance

Technical characteristics

It was while working on a concept for a hotel in Marrakech that the designer had the idea for this model, inspired by the traditional Moroccan footstool. The project never got off the ground but we were captivated by the oriental charm of this piece, filled with 'zenitude', comfort and wellbeing. Noé Duchaufour-Lawrance, through his work on quilting and colour, knew how to bring the creative 'added value' which has rooted the model in modernity, 'for keeps'.

CONSTRUCTION Base and external section in polyether foam 28 kg/m³ - 4.8 kPa. Armchairs are available in fixed or rotating versions (with base in 6 mm thick steel, finished in Epoxy black lacquer).

COMFORT Enveloping 'bucket seat'-style seat and back in moulded polyurethane foam 35 kg/m³ - 3.2 kPa, with comfort layer in high resilience polyurethane Bultex foam 38 kg/m³ - 3.6 kPa. **MAKING-UP** Cover is removable (by a professional) and is held in place by lacings at the junction of the seat and back, and by gripper strips on the underside. Cover quilted with polyether foam on the seat/back section, and with 100g/m² polyester quilting on the vertical exterior. Important : the swivelling armchair does not have removable covers.
