

SERPENTINE

Designer

Eléonore Nalet

Technical characteristics

First produced in 2012 with a steel structure, the model Serpentine is being relaunched in 2018 with 2 major innovations : the structure is now in aluminium, a light, easy-to-move material which is impervious to poor weather; the armchair-bridge is complemented with a settee. The settee and armchair/bridge combine to create an attractive outdoor seating set ideal for the garden or patio, whilst the armchair/bridge offers a refined, comfortable seating solution when placed around an outdoor dining table. **CONSTRUCTION** Aluminium finished in a double layer of Epoxy polyester lacquer. Colour: charbon. **COMFORT** Seat pad in polyurethane foam 40 kg/m³ – 4 kPa and polyester fibre. Back composed of 3 long interwoven cushions filled with polyester fibre. **MAKING-UP** Covers are removable. **COVERING MATERIALS** 100 % polyester outdoor-quality fabric.
