

PLUMY

Designer

Annie Hiéronimus

Technical characteristics

A reissue of the iconic model introduced over 35 years ago, the Plummy collection was inspired by the 1980s. Constructed entirely of bonded blocks of polyether and Bultex polyurethane foams of different densities, Plummy's enveloping design is the epitome of comfort and relaxation. All seat and backrest cushions are filled with goose feathers and can be folded into a chaise lounge position to create a customized and relaxing experience. The back-side of the cushions available in 2 versions: in cloth, or upholstered in the main covering material. Seat covers are fully removable and feature a zipper - offered in three color options: matte black, pearl grey or ivory. CONSTRUCTION Structuring base in polyether foam (28kg/m³ - 4.0 kPa). COMFORT Seat and back in high resilience polyurethane Bultex foam (38 kg/m³ - 3.6 kPa). Seat and back cushions : filled with goose feathers (85% feathers /15% down), with compartmented liner. MAKING-UP Fully removable cover, quilted with 200/m² polyester. Reverse of cushions available in 2 versions : in cloth, or upholstered in the main covering material. Choice of 3 colors for the zipper (always matched to the cloth backing in the case of the version with cloth backing : matt black, pearl grey or ivory - please specify your choice when placing your order.
