

# SOFA WITH SLIM ARMREST WITHOUT LUMBAR CUSHION GRAND ANGLE

## Designer

Marie C Dorner

## Technical characteristics

A deep, multifaceted, international settee, the comfort of which is very apparent thanks to its articulated headrest and "stretch" stitching; it was designed to become a great international "classic". The backrest uses an inverted chain system, which makes it possible to create a high headrest in vertical position, or a rolled-up one in combination with a lumbar cushion, or a less deep position. Note the magnificent stitching used to create an elastic mesh which enables an irreproachable look to be maintained whatever the position of the backrest and seat. This "sunburst pleat" holds the material tightly in place, enabling the back to roll up perfectly. Marie-Christine Dorner sought to create an adaptive seat depth, whilst retaining consistency of appearance. The broad armrest is also designed to be sat on. The feather-filled lumbar cushions are dense, for a perfect fit. CONSTRUCTION  
Structure of seat: webbed metal frame.  
Structure of backrest : panels 3-layer

## SIZES

Height 28 " | Width 89 " | Depth 39 " | Seat height 16 " | Seats 3 |

Weight 266.274

lb

plywood with articulated headrest.  
Armrest composed of panels of plywood.  
COMFORT Seat composed of high  
resilience polyurethane Bultex foam (36  
kg/m<sup>3</sup> – 2.8 kPa) and ultra-flexible foam  
(45 kg/m<sup>3</sup> – 1.8 kPa) with comfort layer  
of feathers (goose feathers, of which  
15% down). Backrest composed of high  
resilience polyurethane Bultex foam (26  
kg/m<sup>3</sup> – 1.4 kPa) clad in ultra-flexible  
foam (45 kg/m<sup>3</sup> – 1.8 kPa). Feather-filled  
back (lumbar) cushion (goose feathers,  
of which 15% down). MAKING-UP  
Backrest quilted with stretch fabric to  
retain pleating on rear of backrest. Cover  
quilted with 110 g/m<sup>2</sup> polyester.
