

TABLE LAMP SOSPIR

Designer

Busetti Garuti Redaelli

Description

The whiteness of Carrara marble is emphasised by the black lacquered steel structure. The lower surface reflects the light emitted by the LED module through the diffuser plate located beneath the upper surface. The modernity of the LED lighting is put to the service of an Art Deco-inspired object which is pared-down to the extreme. The black textile cable adds a domestic, sensual touch. Structure in Epoxy satin black lacquered steel. Two surfaces in 10 mm thick brilliant-polished Carrara marble, Ø 19 cm. Black textile cable. Black manual switch. 15.6 W LED module giving off 2,070 lumens or the equivalent of a 150 W incandescent bulb. Colour temperature 3,000 K (warm white). Total consumption 16.5 W. Plug-in LED driver supplied with 2 x interchangeable plugs: Euro and US. The same version works with both 220V and 110V.
