identical across all doors. STRUCTURE :

The range is composed of single and double bays that can be cut in height and niches that can be cut in width and in height, or a corner bay for the version without door. For the wardrobe, each chest has a top, a bottom, two sides and a back. For the dressing also, but in the case of two superimposed chests, we will use an intermediate side. Whatever the version, with or without door, the niches have their own sides. FINISHES : The structure is available in white or chocolate lacquer. It is possible to have the end panels (exterior face + edges) in the same colour as the door, in the choice of the 13 lacquer colours mentioned above, or in grooved dark walnut veneer. The back can be in white or chocolate lacquer or dark walnut decor or natural oak decor. The edges of the chocolate shelves can be either in chocolate lacquer or dark walnut decor and the edges of the white shelves either in white lacquer or natural oak decor.
