

LOW TABLE CM 191

Designer

Pierre Paulin

Technical characteristics

A model patented by Pierre Paulin on 26th February 1959 under the number 90523 (although it seems to have been marketed earlier than this), its purity makes it a timeless low table which is today highly sought after by admirers. It was one of the most attractive designs he was to produce for Thonet France, with whom he worked between 1952 and 1959.
