

LOW TABLE SMALL TOPS IN GOLDEN BRASS ASPECT STEEL LOWLANDS

Designer

Böttcher & Kayser

Description

Low table with black lacquered structure and tops in oxidized steel structure with golden brass aspect.

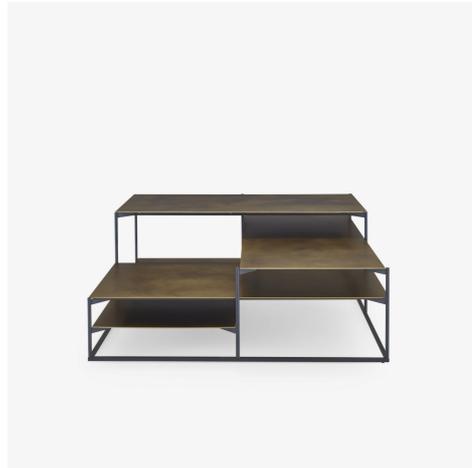

Technical characteristics

Lowlands is a low table which is at once decorative and functional. Its four surfaces are positioned at various heights in a swirling fashion, which creates a real graphic melody and dynamic rhythm. Its storage space is perfectly optimized in a way which is as smart as it is elegant, with no concession in terms of the finesse and visual lightness which characterize it, underpinned by its single-material treatment.
