

VASE TIKAL

Designer

Atelier BL 119- Blain & Dixneuf

Description

Vase in matt white moulded porcelain, with biscuit porcelain on the exterior and clear enamel on the interior.

Technical characteristics

This vase with geometric shapes is reminiscent of the bell of wind instruments. Its design is the result of the transformation of a rectangle on its base into a circle at the top. This wide opening makes the filling of the water and unfolding of the flowers in the vase much easier. Perfect for a round bouquet ! Two cylinders come on the sides to accompany the shape of the vase and serve as handles. This geometric set then takes the appearance of a small sculpture and can even remind us of a kind of fetish or totem. The name Tikal refers to the Maya city. Tikal is the greatest archeological site of the pre-Columbian Maya civilisation.
